

Please note that Melodious Strings is currently not accepting custom arrangement requests for our **string trio & trumpet** type of ensemble. Below is our comprehensive repertoire list for our string trio & trumpet ensemble. However, we do have additional string trio-only repertoire available from the other genre lists on our repertoire page, and we also custom arrange for the string trio-only type ensemble, so if the client would like some additional repertoire variety in addition to the pieces below, we recommend mixing in some strings-only pieces along with the strings & trumpet repertoire.
