*We are constantly adding new pieces to our repertoire, so if you have any specific repertoire requests and needs in mind, just ask! We are likely to already have it in our music library.

**Also, feel free to substitute a piece from one category for another in a different category (for example, a “recessional” piece for a “processional” or vice versa). These suggested categories are only meant to serve as helpful suggestions and to provide ideas for musical brainstorming and are by no means fixed rules of thumb.
